

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: November 19, 2001/ 1:00 pm

Site Contact(s): Carolyn Hicks
Phone: (303) 966-5773

Regulatory Contact: James Hindman
Phone: (303) 692-3345

Agency: CDPHE

Purpose of Contact: Requested approval to proceed with decommissioning of Building 707 gloveboxes and equipment associated with RCRA Unit 707.3A (Salt Stabilization, Module A) and Unit 707.3C (Dry residue repack, Module D) pending CDPHE approval of request to withdraw units from RCRA permit.

Discussion: The Salt Stabilization Process (Unit 707.3A) and Dry Residue Repack Process (Unit 707.3C) were permitted but never activated. RCRA Permit Modification 01-10, submitted to CDPHE on 6/18/01, requested withdrawal of these units from the permit. Mr. Hindman toured these units (and others included in Permit Mod 01-10) on November 14, 2001, and is in the process of preparing an approval letter.

The Salt Stabilization Process (Unit 707.3A) includes gloveboxes A-70, A-75, A-80, A-85, A-90, A-100, A-120, A-125, and furnaces in Module A. The Dry Residue Repack Process (Unit 707.3C) includes gloveboxes D-30, D-35, D-40, D-45, D-75, D-90, D-95, and crusher, saws, milling machine, and hand tools in Module D. None of these gloveboxes or equipment have been used for storage or treatment of hazardous or mixed wastes.

Pending approval of the request to withdraw these units from the permit, Mr. Hindman granted approval to proceed with decommissioning of the gloveboxes and equipment associated with these units.

Mr. Hindman asked for verification that none of these gloveboxes were previously used for interim status/mixed residue storage. I verified by reviewing the RCRA Master List that only Glovebox A-125 was previously regulated as Container Storage Unit 90.106 (Mixed Residue Part B Permit Application, 6/30/92). Unit 90.106 was never used for hazardous waste and was withdrawn on 10/26/94, ref. 94-DOE-10453.
